PROFESSIONAL SUMMARY

MERN Stack Developer with knowledge of JavaScript, React.js, Node.js, Express.js, and MongoDB. I have built full-stack web applications through personal projects and have a basic understanding of REST APIs, authentication, and responsive web design. I enjoy solving coding problems and building user-friendly web applications. I am eager to improve my technical skills, learn new technologies, and contribute to real-world projects while growing as a developer.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, REST APIs, JWT, Socket.IO
Databases: MongoDB, MongoDB Atlas, MySQL
Tools & Deployment: Git, GitHub, Docker, Kubernetes, CI/CD, VS Code, Vercel, Render
Other: Data Structures & Algorithms, OOP, Python

PROJECTS

TeamPulse – Team Workspace & Task Management System Live Demo | GitHub

React 18, Node.js, Express.js, MongoDB Atlas, Tailwind CSS, Socket.io, REST APIs

- **Frontend & UI Design:** Built a modern, fully responsive user interface using React 18 and Tailwind CSS with reusable components (Kanban board, forms, modal popups).
- **State Management & Auth:** Managed user login and role-based access (Admin/Employee) using React Context API and JWT authentication.
- **Backend & Database:** Created clean RESTful APIs using Node.js and Express.js, connecting with MongoDB Atlas for storing tasks, users, and audit records.
- **Real-Time Updates:** Integrated Socket.io with Axios on the frontend for instant Kanban task status changes and notifications without reloading the page.
- **Deployment & DevOps:** Containerized the application using Docker and set up a CI/CD pipeline to automatically build and test the code on every push to GitHub.

SplitMate: Group Expense Sharing & Settlement App Live Demo | GitHub

React 18, Tailwind CSS, TanStack React Query, React Hook Form, Zod, Vitest, PWA

- Developed a fully responsive web app using React 18 and Tailwind CSS, with a modern dark theme, smooth mobile navigation and interactive charts for expense tracking.
- Managed API data and caching using TanStack React Query, handling loading spinners, error messages and automatic data updates without page reload.
- Created dynamic expense splitting forms using React Hook Form and Zod, validating user inputs in real time for equal, percentage and itemized splits.
- Added PWA support so users can install the website like a mobile app, and wrote unit tests with Vitest to verify accurate bill calculations.

EDUCATION

B.Tech in Computer Science Engineering, Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal — CGPA: 7.13

Class XII, Bihar School Examination Board, Patna — 62.8%

Class X, Bihar School Examination Board, Patna — 78.8%
